

Dear SuperMAG Friend

SuperMAG news:

- 1) SuperMAG adds imaging to service

Best wishes,  
Jesper

-----  
SuperMAG beta testing

We have added Polar VIS auroral imagery to the SuperMAG data plots. Currently we have a test case available through the test URL:

<http://supermag.jhuapl.edu/archive/map.ex.north/>

Choose January 07, 1997 to see the images. The images are displayed as an extra layer that can be toggled on and off using the control panel. Clicking on one of the 2x6 summary images will open a larger plot.
