

Dear SuperMAG Friend

Latest news from the SuperMAG service:

- 1) Data holdings expanded.
- 2) Website updated.
- 3) Steering Committee.

As always we are open to any feedback.

Best wishes,
Jesper

-
- 1) Data holdings expanded.

With the generous help of several collaborators we have expanded the data holdings. This expansion has focused on recent years.

-
- 2) Website updated.

The website has been updated. The update includes correction of several errors and other nuisances as well as a general update of the interface. Check it out and let us know of any mistakes you may find.

Thanks to Matthew Potter (design and implementation) and Tove Dehn (design).

-
- 3) Steering Committee.

In a response to the constantly expanding SuperMAG service we have formed a steering committee. The purpose of the steering committee is to ensure that the future direction of SuperMAG is in the best interest of users, collaborators and funding agencies. The committee members have been selected to represent the different groups of participants while acknowledging the global nature of the SuperMAG initiative. The list of members can be found at: <http://supermag.jhuapl.edu/info/steeringcommittee.html>
